Summary

Recent B.Tech graduate in CS & IIoT from GLA University with strong foundations in Data Structures & Algorithms and OOPs. Familiar with Java and Python, with experience building and deploying projects from scratch. Seeking an entry-level Software Developer role to apply problem-solving skills and deliver real impact.

Technical Skills

- **Languages:** Java, Python, C#
- **CS Fundamentals & Core Domains:** Data Structures & Algorithms, OOPs, DBMS, Machine Learning, Data Visualization, Problem Solving
- **Databases:** SQL, MongoDB, Firebase Firestore
- **Tools:** Git, GitHub, VS Code, Power BI, Google Colab, Jupyter Notebook
- **Libraries:** Pandas, NumPy, Scikit-learn, Matplotlib

Projects

AI-Driven Sports Insights Platform

GitHub

Python, Pandas, Scikit-learn, Power BI

Oct 2025 – Dec 2025

- Built an end-to-end analytics pipeline using Python and Pandas to clean and preprocess 10,000 player performance records.
- Developed interactive Power BI dashboards and deployed a Scikit-learn regression model achieving 78% trend prediction accuracy.

Code Elevate – Learning Platform

GitHub

HTML, CSS, JavaScript

Aug 2025 – Sep 2025

- Designed a responsive web platform that systematically structures 10+ core programming topics for progressive learning.
- Streamlined user workflows by engineering an optimized interface layout, improving overall navigation efficiency.

Personal Portfolio Website

GitHub

HTML, CSS, JavaScript, Responsive Design

July 2025

- Engineered a personal portfolio site featuring fluid layout components optimized for cross-platform and mobile responsiveness.

Experience

JOVAC – Data Structures and Algorithms with Java

GLA University, Mathura

Industrial Trainee

June 2024 – Aug 2024

- Participated in an intensive algorithmic training program covering arrays, recursion, linked lists, trees, sorting, and searching.
- Solved 50+ optimization problems focusing heavily on calculating and reducing asymptotic time and space complexity.
- Practiced logical decomposition to break complex computing problems down into systematic, optimal solutions.

Education

GLA University, Mathura

Expected June 2026

Bachelor of Technology (B.Tech) – Computer Science & Industrial Internet of Things (IIoT)

CGPA: 7.29

Certifications & Achievements

- **Data Structures and Algorithms with Java** – Apna College (Alpha Batch)
- **Full Stack Development Bootcamp** – GeeksforGeeks (covered HTML, CSS, JavaScript, Node.js, MongoDB)
- **NPTEL Discipline Star Award** – given for consistent performance across NPTEL certification courses
- **Certified in IIoT and Machine Learning** – completed as part of B.Tech specialization
